23 July 1982

MEMORANDUM FOR: Users Of Ops Manual ANNOTATE, OLAY8, OLAY9, PLOT

FROM   : [   ]   STAT

                 OSG/CSD

SUBJECT   : PLOT Tape DATCHK Error Messages

REFERENCES   : DR/AR 0895

        The 1100/80 EXEC System executes a label check whenever an attempt is made to
either read or write a 7-track plot tape. The unique format of the CAL-COMP plot-
ter commands precludes the writing of a tape label by the applications program.
Even though a tape label is not required, the tape label check is performed.

        The following is an example of the console messages and responses required
whenever a new or fleshly degaussed tape is used:

        O   TB11 PO/I1/I1CMO/TCBO DATCHK R EXEC 8 AGM

        O   G

        O   IS TAPE ON TB11 A LABELED TAPE   Y,N

        O   N

        After a plot tape has been used, and if it has not been degaussed, the
DATCHK and LABELED tape messages will sometimes not appear.

        Under current operating conditions, the data and label checks are acceptable.
The data written to the plot tapes is not in any way impaired. This situation will
exist until further notice.

                                                                              STAT

Date Logged 92/07/26

STAT

Originator:		Date: 23 July 82	Group: OSG	Phone: 3313

CR/RFC/ECP No. DOS95	Final (Y) N U	[X] Perm [ ] Temp Remove Date:	Priority E U (R)	Scheduled Implementation Date ASAP

Change Description

1) ANNOTATE: Tape assignment card in the run deck was changed

   From: @ASG,TM TAPE1.,U,PLOTTP   To: @ASG,TMJ TAPE1.,U,PLOTTP

2) OLAY8 runstreams XM8*W$RUN.OLAY8/XQT
   OLAY9   XM9*W$RUN.OLAY9/XQT were changed

   From: @ASG,T PLOT-TAPE.,U//////6,PLOTTP
   To : @ASG,TJ PLOT-TAPE.,U//////6,PLOTTP

3) PLOT: source code in XM8*W$SYM.PCHOIS, tape assignment code changed

   From: @ASG,TM TAPE1.,30 To: @ASG,TMJ TAPE1.,30

Implementation/ Verification Instructions

1) ANNOTATE: Notify OSG/RSD/MAP [   ] of change. Use her card deck to   STAT
   initiate run. Verify tape request message on operator's console.

2) OLAY8   Copy XM8*W$RUN.OLAY8/XQT to: XM8*P$RUN.OLAY8/XQT
   OLAY9   XM9*W$RUN.OLAY9/XQT   XM9*P$RUN.OLAY9/XQT

3) PLOT: Copy XMS*W$SYM.PCHOIS to XMS*P$SYM.PCHOIS
             Compile using: XMS*P$RUN.PCHOIS/COMP
             Map using   : XMS*P$RUN.PCHOIS/MAP
             TipCopy using: XMS*P$RUN.PCHOIS/TIP

Operations Impact/ Documents Affected

741153 ANNOTATE/TPLOT Operations Manual P.3, P.5
       Operations Manual for OLAY8, OLAY9 see above change description, item 2
